## PROGRAM

### AVIATION SAFETY SEMINAR

**OPERATION RAINCHECK AND OPERATION TAKEOFF:** ATC controllers from Omaha and a representative from Columbus AFS will provide an update on the services they provide to enable you, the pilot to have a safer and more enjoyable flight. Additional topics will be the enhanced airport security, and how to navigate around the airport.

**REGULATIONS:** The FSDO often encounters pilots who fail to comply with the most basic Federal Aviation Regulations. This quick review of regulations will help you better understand them, and therefore better comply with them.

**ACCIDENT AND WINGS PROGRAM REVIEW:** The Pilot Proficiency Award Program (WINGS) will be reviewed. Learn how it will benefit you as a pilot to participate in this program. The latest accidents in Nebraska will be discussed and how we can learn from other pilots' mistakes.

This program meets the safety meeting requirements of the FAA Pilot Proficiency Award (WINGS) Program. Completion of the requirements of the Wings Program as outlined in AC 61-91, will qualify you to receive a Wings lapel pin and wall certificate. Additionally, if you satisfactorily complete a phase of the Wings Program within the period specified by Section 61.56 of the FAR's, you need not accomplish a flight review.
